Dear Pam Minor,

My name is David DeJesus Sr SBE #209573. Today I saw Dr. McDonald infectious diseases director of Georgetown prison. He ordered a bi-opsy of my liver. After consulting with him he said I would have a much better and faster recovery from my illness at Georgetown as its much better equipped to handle a person in my condition. I have been here at this prison over a year and this is the closest that I've come to any real help. I respectfully request that you consider transferring me to Georgetown prison as my very life depends on it. I thank you for your help in this matter. Please if you have any questions do not hesitate to ask.

Thank you
